IMPORTANT

**TARRAGO PREMIUM NATURAL CREAM** is a nourishing cream based in vegetable oils, but also cleans because of its surfactants. Thanks to the content in surfactants, the cream cleans the surface of the leather. The vegetable oils can penetrate easily into the leather providing nourishment.

**TARRAGO PREMIUM NATURAL CREAM** is a soft cream with a pleasant fragrance for smooth leather, delicate leathers and reptile leathers. Cleans, nourishes, softens and recovers the natural appearance of the leather. Not suitable for suede, nubuck, patent leather or vinyl.

Tarrago Natural Leather Cream and Gel Cream are different products to this new cream. Natural Leather Cream is a nourishing and waterproofing cream, which contains a small portion of solvent and vegetable oils, such as linseed oil and oleic acid, to nourish the natural leather. The Gel Cream function is exclusively as a cleanser gel, does not nourish.

**TARRAGO PREMIUM NATURAL CREAM** is enriched with natural and organic **vegetable oil** \* and **Aloe Vera oil** \*\* providing nutrition and a very soft touch leather. The cream penetrates deep into the leather preventing it from cracking or drying out. Its content in **beeswax** gives a natural shine to leather and extra nutrition. Contains surfactants getting proper cleaning leather.

\* The Vegetable oil is a 100% vegetable oil produced enzymatically. It has a cosmetic oil structure and properties similar to natural jojoba oil. This oil is highly moisturizing, penetrates deep into the leather, therefore, it softens, gives elasticity and nourishes. It is certified by two internationally recognized ECO-BIO products associations, NATRUE and COSMOS.

\*\* The Aloe Vera oil, also is a moisturizing vegetable oil, therefore, softens and nourishes the leather.
